ABOUT US

Techasoft provides end to end solution to businesses by supporting IT infrastructure and digital marketing. Techasoft's focus is to provide a long term I.T. partnerships with our clients. We believe we can provide cost effective service & support allowing you to get the best from your I.T. investment.

Company

Techasoft Pvt. Ltd is one of the fastest growing IT Company that provides a holistic IT solution to businesses across geographies. We offer IT expertise in app development (IOS & android), server side development & digital marketing. We have forayed into healthcare industry & travel and tourism so far. We have plans to enter into IT enabled education services & food service industry. Currently, we have a team of highly skilled IT professionals that work round the clock to ensure Techasoft stays true to its offerings & commitments.

HOW DOES IT WORK

Software Development

We all are living in the 21st century, and this era is the era of Information Technology, Websites, Online Earning, Digital Marketing, e commerce, Software Development, Social Media Marketing, etc.

Software Testing

Software Testing is an approach to detect difference between given input and expected output. At techaSoft we provide support for software testing. Any testing requirement at any point of software development cycle is supported by TechaSoft.

Social Media Marketing

Social media marketing, or SMM, is a form of internet marketing that involves...

Digital Marketing

Techasoft is an advanced digital marketing company in Bangalore that enables brands to communicate and interface with their audiences in a much better way through entire computerized transformation. We improve the brands online value through a mix of performance-enhancing approach, creative drives, latest methodologies and development

Mission

Our mission is to provide innovative software solution for excellence and enterprise compliance.

Vision

Our vision is to become businesses' first choice when it comes to software development and maintenance. To accomplish this, we always try to exceed our client's expectations. Techasoft strives to build lasting partnerships and ensures client satisfaction.

Support

We believe in one rule, since we made the product, it’s our job to take care of it. Our Software maintenance and support teams are competent and qualified engineers concentrating solely on maintenance and support activities.

Solutions

We find your problems and go one at a time to find efficient solutions for it. Our focus is to listening what clients want then providing the best solution to our clients.

www.techasoft.com

What makes us different?

We believe in working in partnership with our clients to understand their unique needs and working methods.

Our exceptionally solid technical expertise allows us to take on projects often perceived as too complex or difficult by other developers. We follow agile practice & keep our clients posted with constant developments.

In our experience, working together consistently results in creating intelligent solutions that meets client's evolving business demands. This collaborative style of working has resulted in quick turnarounds.

Project Planning:

We typically approach every assignment by following the below process:

- Non-disclosure agreements (NDA)
- Technical scope
- Processes and documentation
- Share of responsibilities
- Schedule
- Reporting
